RFCC Presidents Report

54th Bonanza.

Steven and I have been out and about to see last bonanzas sponsors and most of them are back on board. A couple of new sponsors might be interested in coming on board so, we hope they can be added to the list shortly. The local iwi have granted the Club the use of the Matata Tennis Club again for the Bonanza Headquarters and Weigh Station. The wardens' vests have been washed and the fish stains removed. The warden packs will be updated in the coming weeks. Rod tags and wrist bands have been ordered and the entry tickets will be printed in the coming weeks ready to put together at the working bee. Every year all Presidents of this club have asked all members for help and remind you all that this is our main and only fundraiser. Your assistance in helping out is essential for its success. Whether you help in organising the event or being part of the officials on the day, such as Beach Wardens and at the Weigh Station.

Boundary Adjustment.

This process has been stalled at the moment because the Surveyor didn't have the power and water access points to our property on the title plans. This time it wasn't his fault as he wasn't given that information at the start. This will be rectified as soon as possible so that the Lim report can finally be signed off. Our lawyer has been notified and will wait until the Report has been signed off.

Water Agreement.

The Committee has decided to set up a Water Agreement with our neighbour Mr. Ian Burt who supplies water to our clubrooms. I have spoken to Ian, and he has agreed to have an agreement. This will cover such items as the amount the club pays per year, for how many years, when payments are reviewed etc. This agreement in the future will safeguard the club to have access to water and in case the farm is sold or sub-divided this agreement becomes part of the farm's assets.

Renovations.

The working bee at the end of November will be a good chance to finish the painting of the inside of the clubrooms. The two shower rooms to be completed and the Weigh Station tidied up with a coat of paint. A ramp is to be built for easy access.

Catch you later,
Dave Brown.
President.

Club Captain Report: October 2022

Well, the club's fishing weekend had really good weather conditions. Not that many fish were weighed in over the weekend. The biggest snapper was 2.94kg and the heaviest other trevally 2.14kg went to me. The heaviest kahawai went to blue Hobbs 1.12kg. 1st raffle went to Patrick 2nd Blue Hobbs 3rd Blue Hobbs. Gary Trelor wants to thank the club members who helped him get off the beach and the truck is now all sorted.

Till next time
Cheers Steven.

Working Bee: NOVEMBER 26th & 27th

- Finish the painting of the inside of the clubrooms.
- The two shower rooms to be completed
- Weigh Station tidied up with a coat of paint.
- A ramp is to be built for easy access
- Bonanza Ticket Bags to be prepared

Bonanza

As you will all know the annual Fishing Bonanza is the only fundraising activity the club holds. Therefore, it is very important for the club and all members to become involved in some way to help this event be successful.

This year we are sending out a sponsorship form to all members and ask that everyone help the club by finding one sponsor each.

This can be in the form of a cash sponsor, the cash collected will go towards purchase of prizes, or in the form of goods or services which can then become a prize.

As you will know we are still wanting members to come on the day to help... wardens, weigh station, after event BBQ catering and cooking etc.

Contact the Secretary to let us know how you can help on the day.

We are also looking for people who can help put together the ticket bags ready for sale. We plan to do this as part of the working bee on November 26 and 27th.

Hoping to see as many there as possible.

ROTORUA FISHING and CASTING CLUB 2022/2023 CLUB CALENDAR

| | |
